Code with GitHub Codespaces and Visual Studio Code

Develop code using GitHub Codespaces and Visual Studio Code!

Finish

Congratulations friend, you've completed this course!

Here's a recap of all the tasks you've accomplished in your repository:

- You learned how to create a codespace and push code to your repository from the codespace.
- You learned how to use custom images in your codespace.
- You learned how to customize your codespace.
- You learned how to personalize your codespace.

Additional learning and resources

- [Developing in a codespace](#). Learn how to delete a codespace, open an existing codespace, connect to a private network, forward ports, and much more.
- [Set up your repository](#). Learn how to set minimum machine specs for a codespace, add badges, set up a template repo, and much more.
